Dear Mr Perrott,

Thank you for your emails supporting your previous correspondence regarding Benzodiazepine Addiction. I have now received from the Health Minister, Gillian Merron, a copy of the reply of 3 March which was sent direct to you from Dora East, Customer Services Officer at the Department of Health.

I understand your eagerness for treatment centres to be established to support those with addictions to prescription drugs and can assure you that I will raise this matter personally when I next meet with the Chief Executives of the local health authorities.

Yours sincerely,

BEN WALLACE
